Okay – we all agree that the reference to s.16.997(2)(d) can be removed from s.20.505(1)(ke). On the s.20.505(1)(is) appropriation, perhaps it would be easier to add a clause at the beginning that says "all monies received, as it relates to nonstate entities under ..., " The problem is that several of the provisions under chapter 16 do not split state agencies from nonstate agencies (see language in s. 16.972(2)(c)

We can discuss this as well when I get back to you on the DOA superpower draft.

Thanks - Jenny

Hi,

The reference to s. 16.997(2)(d) can be removed from s. 20.505(1)(ke). The remaining references are fine as they are. Let me know if you would like to discuss further.

Hi Jenny –

I am not concerned about changing the appropriation to continuing and understand your explanation about the revenue cut-off issue (I was just guessing that that was how DOA knew when to direct moneys to the other appropriations. Silly me).

I think it makes sense to involve other DOA folks to clean up the appropriations. Here's a few ideas and questions on this point:

1. I could easily amend s. 20.505 (1) (ke) to exclude s. 16.972 (2) (b) and (c) from the broader reference to s. 16.972; I'm not sure, however, how to deal with the dual reference to s. 16.997 (2) (d) in both s. 20.505 (1) (is) and (ke). Any suggestions?
2. I could easily amend s. 20.505 (1) (kL) to exclude s. 16.972 (2) (b) and (c) from the broader reference to s. 16.972; I'm not sure, however, how to deal with the dual reference to s. 16.974 (3) in both s. 20.505 (1) (is) and (kL). Any suggestions?

Tracy

Hi Tracy

I thought I would weigh in on these two drafts:

[...]

As far as BB0275 what we are trying to achieve is more flexibility on the expenditure authority levels. By making it a sum certain, the amounts in the schedule are the upper limit of what they can spend in that fiscal year regardless of the revenue received. By making it a continuing appropriation, we can increase the expenditure authority without have to go to JCF under s.16.515.

On the revenue end of this – I don't think there is a cut-off point per se. I think the revenue that is designated to come to this appropriation still comes there even if the expenditure authority isn't high enough for it to be spent. At least that is how we view this from the budgeting perspective. Having looked at the other appropriations that you cited however, I think it is a bit confusing which revenues go where. I think in practice the \$ (except telecommunications revenue which goes into (1)(ke)) associated with state agencies goes into 1(kL) and the \$ associated with non-state agencies goes into (1)(is). Maybe what we need to do is to clean the revenue references up. Let me know if you think that makes sense and I'll involve the budget office staff here in DOA that work with these appropriations more closely.

Thanks - Jenny

Hi Sasha -

On BB0275 - It may be necessary to resolve some appropriation conflicts in order to accomplish DOA's intent to make this an "all monies received" appropriation. Under current law, because the appropriation is sum certain, there is a cut-of point at which the moneys coming to that appropriation end. In the absence of this cut-off, there will be a conflict between where the monies received under s. 16.972, 16.974, and 16.997 should go. Right now the moneys received under these three statues are directed to the appropriations under s. 20.505 (1) (ke), 20.505 (1) (kL), and 20.505 (1) (is). Please advise.

Hi Tracy,

For BB0275 (Information Technology Appropriation), with regard to your second note, our intent is not that appropriation 20.505(1)(is) continues to be a sum certain appropriation, but rather that it is all moneys received from the specified sources.
